- Japa or No Japa?

AGENDA

01

PROGRAM INFORMATION

An overview of the program, its objectives, key partners, and the value it offers to participants.

02

PROGRAM STRUCTURE

The courses every participants are offering during this program and its structure

03

CODE OF CONDUCT

Guidelines and expectations for participant behavior. Tools and platform used

04

PROGRAM TEAM

Introducing the program team and faculty. Also other available information to fellows

01

PROGRAM INFORMATION

Welcome to Digital Innovators Fellowship

About The Digital Innovators Fellowship

The Digital Innovators Fellowship (DIF) is a collaborative initiative by the **UK-Nigeria Tech Hub**, **NerdzFactory Company**, and **The People Practice**. It is designed to bridge the gap between emerging tech talent and employment opportunities by upskilling entry-level professionals with the practical skills and experience needed to thrive in Nigeria's dynamic digital economy.

The fellowship targets young professionals who already have foundational knowledge in high-demand digital fields, including:

- Software Development
- Product Management
- Product Design
- Graphics Design
- Cybersecurity

The Fellowship Objective

CAPACITY BUILDING

To accelerate the digital job readiness of entry-level talents towards transitioning into mid-level talent and emerging technology specialisations

ECONOMIC EMPOWERMENT

Beyond learning, at DIF Program, all learnings are channeled towards economically empowering fellows.

Program Components

A. Technical Masterclass

The Fellowship focuses on building industry-relevant expertise through deep-dive sessions led by industry experts, combined with practical projects that strengthen participants' portfolios and real-world problem-solving skills across five high-demand areas:

- Software Development,
- Graphic Design
- Cybersecurity
- Product Design
- Product Management

Program Components

B. Job Readiness (Soft skills)

The Fellowship also provides job readiness and soft skills development in:

- Visualisation & Career Mapping
- Crafting a Winning CV and LinkedIn Profile
- Communication, Presentation, & Work Hacks for Professional Success
- Job Readiness (Interview Prep and Mock Interviews)
- Emotional Intelligence, Productivity & Problem-Solving
- Being Work Healthy: Mental Health & Resilience
- Understanding Culture and Becoming a Work Ambassador: Teamwork & Workplace Dynamics

Program Components

C. Job Placement Support

A key goal of the DIF program is to transition you from learning into meaningful employment or internship opportunities in the tech industry. We will be partnering with companies, startups, and hiring platforms to match skilled fellows with relevant job openings.

- Job Readiness Assessment
- Portfolio & Resume Development
- Interview Coaching & Mock Interviews
- Access to Job Opportunities
- Employer Matching & Referrals

Code of Conduct

- Respect everyone: Show respect to facilitators, fellow participants, and organizers.
- Language: Use appropriate, respectful language, avoiding derogatory or discriminatory comments.
- Timeliness: Arrive 10 minutes before classes.
- Openness: Maintain an open mind for effective learning.
- Optimism: Approach learning with positivity and enthusiasm.
- Patience: Recognize learning requires time and effort.
- Commitment: Dedicate yourself to the learning process.
- Maintain a positive attitude and supportive environment.
- Respect deadlines

Fellows Checklist

Document your progress

As a Digital Innovator, you're encouraged to keep a Digital Diary, sharing regular posts on Instagram, LinkedIn, or X (Twitter) about your learnings from masterclasses and soft skills sessions. This is a great way to track your growth, build your personal brand, and highlight the impact of the fellowship while inspiring others along the way.

Successfully complete all your projects and presentations

It is required that all your projects are successfully completed and submitted on the appropriate channels

Complete Attendance & Capstone Project

Make sure to completely fill the attendance all through the program
